+ About \$8.00
NET From
DRIVE Acquis. now

20... (About) → 320

I'm sending this along so you can figure out to whom you should be sending the 1989 "set" of newsletters...

G. Gedonius called to advise me that you sent her a LOT of material, most of which she already had.

Bill Klein called to advise me that he did not receive pre-NOV/DEC 1989 newsletters.

James McCall may-or-may-not have received the "other" newsletters.

The drives arrived ... the total shipping was only \$10.00. I told Leo that as a consequence I would only be assessing each person \$5.00 for their portion of the order ... the group nets about \$8.00 from the order. [UMMMmmmm. I didn't read -- until after stating that the Treasury would float the purchase -- your stated policy for the group with regard to 'Group Buys'. Sorry.]

I'm including this letter from Mark Elzinga because you may wish to add him to the mailing list (as you see fit)...use your discretion as PRESIDENT PRO TEMP in absence of S.J. Weinberg's input and your control of the out-going mail!

you should know how grateful he is, and

Attention Sir:

I would first like to say "Thank you" for the gratitude and service in getting me a copy of the book "Mastering Machine Code on Your ZX81". Bob Swoger must be a special individual and a great asset to your organization. He was definitely a great asset to me as I was grabbing straws in writing my original letter asking for help.

Enclosed is a check for \$3.00 to cover the S & H costs in getting the book here. I would like to receive the newsletter, but money is a little tight in our household. Maybe a little later I will be to find the money to do so.

Again, thank you for your help. You have my greatest admiration.

Thank you,

Mark Elzinga
